BRITISH IMMIGRATION SOCIETY.

The Annual General Meeting will be held at the British Consulate on Wednesday June 2nd at 4 o'clock, when all ordinary business will be dealt with. The Committee have decided that part of the business will be the advisability of selling the land which the society holds. It will also be proposed that while the Capital of the Society be kept intact, the interest should be paid to the British and American Benevolent Society, on the understanding that the Benevolent Society deals with the cases of necessitous Immigrants.

Montevideo, 26th

A telegram to the President from Rocha, dated 26th, announces that Carbajal, commanding the Minas Division, caught up on the previous day a Blanco column 500 strong and that, after pursuing it for seven leagues under fire, he forced the enemy into the laguna and marshes of Castillos. Eleven dead and three dangerously wounded were found, twenty-three were taken prisioner; three standards were captured; 52 saddled horses. 32 remingtons, 27 lances, 4 swords and more than 400 horses fell into the hands of the Government force. Those who escaped crossed the Brazilian frontier. The telegram adds that those who were drowned and who must have died in the impenetrable morasses are probably very many. At nightfall many were still seen swimming in the laguna.

Another telegram published from the Consul of Santa Victoria confirms the total rout of the Blanco column stating also that 230 rebels were interned on Brazilian territory and that Benitez the Blanco leader had been taken prisoner.

The Queen's birthday was hilariously celebrated in this city. At nine o'clock in the morning a band of music composed of intelligent Italians, who read the papers and keep up to date, appeared at the English Club and played "God save the Queen" on the staircase. There was hardly any one in the club, so they got a dollar and left promising to return later. They then proceeded to the the British Bank where the manager who has no soul for music gave them a dollar not to play. They then proceeded to the other English Banks and companies with varying success. At six the Bank reappeared on the Club staircase and broke up a Committee Meeting, received more money and whiskey and left promising to return later, which they did at ten; got more money and whiskey, playing less well than in the morning. A procession of Club members was then formed headed by the band each musician now playing for himself, the procession marched round the plaza, their sweet silvery voices singing "God save the Queen". They serenaded the Uruguay Club and the Central Police station, meeting with an enthusiastic reception at both places. They then returned to the Club and dissolved, the Italian musicians zig-zagging home. There was a dinner at the British Legation and sundry small private entertainments in town. Altogether the Queen's birthday has never been so joyously celebrated in this town.

Later details in regard to the absconding clerk of the London and Brazilian Bank say that the defalcation will not reach $1,000. It is also said that before leaving he sent in his resignation, in addition to selling the chickens of the friend at whose quinta he had free quarters. He even pushed matters to the extent of selling for 50 cents that same friend's little yellow dog, his faithful companion during years of exile.

Another bulletin will be issued shortly I will wire it, if important.

Mutiny of cadets in Rio.

St. Petersburg, 26th—A suspicious individual has been arrested in the Park surrounding the Emperor's Palace of Tsarkel Lelo. The man had a revolver and knife concealed about his person, and on being questioned declarad that he was a Nihilist and had entered the Park intending to murder the Czar in order that they might afterwards hang him up as a patriotic hero.

Paris, 26th—M. Dreyfus, head of the well known banking firm of the same name, has died. The *Temps* in outlining deceased's life does so in most flattering terms.

Algiers, 26th—The Antisemitic excitement in Oran and other places is decreasing. The authorities have adopted severe measures to prevent a repetition of tumults.

Berlin, 26th—Herr Tausch's trial will last at least for another fortnight, and will give rise to important revelations.

Paris, 26th—Serpa Pinto the Portuguese explorer, continues dangerously ill.

Paris, 26th—The Chamber of Deputies this afternoon began the discussion of the project for renewing the privileges of the Bank of France. The project will, it appears, be approved.

Turin, 26th—The authorities have ordered an enquiry to be made as to the causes which ended in the asphixiation of a number of inmates of the Beggars' Hospital on Monday last.

London, 26th—To-day's *Financial News* contains a leading article which speaks very favourably of the Argentine Republic. The writer has no doubt been inspired by the reports sent to him by this journal's correspondent in Buenos Aires After dealing with the state of Agriculture and the cattle breeding industry in the Argentine Republic, as also the increasing commercial trade of the country with Europe, the *Financial News* declares that the Argentine Republic shows a vitality as great as unexpected, inasmuch as no one thought that such a rapid reaction would set in after a term during which all kinds of blunders were committed.

The same paper in referring to Argentine Bondholders, states that the era of doubt and misgiving for them has passed away, and that all those interested in the welfare and progress of the Argentine Republic should entertain the brightest hopes of a rapid improvement in the country's credit. The writer in concluding his article expresses the fear that some incident between Chile and the Argentine Republic might occur to do away with the confidence which Bondholders are beginning to entertain in the country's future. The *Financial News* only insinuates this as possible. The article has created an excellent impression in the city.

Athens, 26th—The Greek Authorities have embarked the Italian volunteers for Bari in Italy.

Constantinople, 26th—The Foreign Ambassadors to-day handed the Sublime Porte a document referring to the conditions for peace with Greece.

Rome, 26th—In the Chamber of Deputies to-day, President Zanardelli read an affectionate telegram from his colleague in Athens, in which the Greek Chambers condole with the Italian Chambers on the death of Deputy Fratti.

Berlin, 26th—Tausch, ex Chief of Police, has confessed that he had taken money by illegal means in order to pay his numerous debts. He appears to repent his conduct, and is in very low spirits.

London, 26th — The Hon. George Curzon, in replying to a question on the Greco-Turkish war, declared that the Powers had suppressed the neutral zone in the island of Crete.

Madrid, 26th—Telegrams from Ferrol report that an earthquake shock was felt there last night. No damage was done.

London, 26th—The news that Lord Salisbury has advised the German, French, Italian, Austrian and Russian Governments that Great Britain had resolved not to authorize the dismemberment of Greece even if it should only be of a temporary character, has created a sensation in Diplomatic circles. If the Powers authorize Turkey to keep Thessaly until Greece pay the war indemnity, then England will withdraw from the European Concert and pursue a policy opposed to the ambitious views of the Sublime Porte. This policy of the British Government places the European Concert in great danger, as Emperor William is determined not to have anything to do with the Concert should the Powers insist on Turkish troops leaving Greece before the total payment of the indemnity.

Vienna, 26th—It is known here from a good source that the collective Memorandum of the Powers presented yesterday to the Sublime Porte consents to a rectification of the frontiers in Thessaly, as also a war indemnity, the amount of which will be subsequently fixed; but it refuses categorically the suppression of the privileges granted to the Greeks in Turkey.

Parie, 26th—The *Temps* thinks that Turkey will accept the advice of the Powers, and will not insist on her extreme terms for making peace with Greece.

Berlin, 26th—The Reichstag voted today, after great opposition, 30 million marks to increase the strength of the land artillery.

Rome, 26th—Two hundred and fifty Garabaldians left Corfu to-day on their return to Italy.

Athens, 26th—De Felice, the Italian Socialist Deputy and volunteer against the Turks was to-day turned out by the portere at the door of the Foreign Office for having grossly insulted Prime Minister Ralli, De Felice was subsequently shipping by the police on board an Italian man-of-war and forbidden ever again to tread on Greek soil.

THIS MORNING'S TELEGRAMS.

(Received after Midnight.)

Madrid, 26th—The Liberal members were again absent at to-day's sitting of the Deputies, as they insist still on the resignation of the Duke of Tetuan. The Chamber passed several measures to provide the necessary funds for covering the war expenses in Cuba and the Philippines. Amongst these measures may be mentioned a State-monopoly for explosives and an extra tithe on ordinary taxes.

Rio de Janeiro, 26th—The military cadets mutinied this afternoon. The 1st and 10th regiments of infantry and two batteries were immediately despatched to the academy buildings. On the arrival of the troops the boys surrendered, but they had already thrown into the sea the arms and ammunition found on the premises. The mutineers are all under arrest.

Christiania, 26th—The City of Levanger, in the Province of Nordre Trondhjem, was destroyed to-day by fire. A thousand persons have been left homeless.

THE COMING PLAGUE.

It is high time the attention of Government were directed to the critical condition of the herds of the country, and to the urgent necessity of exercising the strictest vigilance over the terrible disease that has now broken out. We refer to the "tristeza", which we strongly apprehend to be a fresh edition of Texas fever, and of which cases now so frequently occur that estancieros are justly alarmed and the public painfully interested, although the Government appear quite indifferent. The apathy of our rulers in matters affecting the true sources of this country's wealth is so threadbare a subject that it would be difficult to find anything to invest it with fresh interest. We may, however, point out, that, in this particular case, the ignorance or indifference,—interchangeable terms—of the Government is owing in a very great measure to the want of a Bureau or a Ministry of Agriculture, of a properly trained staff of experts entrusted with the task of watching over the interests of agriculture in the widest sense of the term, that is embracing our pastoral industry, which is the very backbone of the country. There might, in the past, have been some excuse, or at any rate some explanation for the official neglect of pastoral interests, for the country was young and the developing of our institutions laid under contribution all the talent, attention and energy of the leading men of the day. In those days we did not export 20 million dollars worth of live-stock per annum; we imported wheat and even vegetables, and our principal staple was wool, which grew in spite of every obstacle, and which circumstances superior to our indolent conservativeness, induced the world to purchase. Those were happy-go-lucky days when sans care, sans pretension, and—we we had almost written "sans culottes"—sans fashion, the lords of the land quietly sipped mate on their doorsteps and enjoyed the serene happiness of simplicity. Competition and the struggle for life have changed all that and quickened the spirit of enterprise and introduced that peculiar pilfering known as "Making fortunes" with all the attendant glamour of luxury and what is known as civilization. Far be it from us to throw ridicule on the happy simplicity of the old days, or even decry the present material advancement of the Plate. What we wish to shew is simply that in spite of the great development which has raised this capital to the rank of a European city and the country to a proud place on the roll of nations, there is a glaring official indifference to the main source of the country's wealth, and therefore a want of logic and prevision which in less favoured climes would be accounted symptomatic of incompetence.

Were it not for the newspapers, we very much doubt whether the Government would know of the presence of the 'tristeza' in our herds, but, although in our columns the etiological and pathological bearings of the subject have been lightly touched upon by certain observant correspondents, it is impossible for a newspaper to find either time or space to perform the duty of an expert or fulfill the obligations of a Ministry of Agriculture. Need we add that if ever there was a country that required a Ministry of Agriculture, it is Argentina.

To this subject we seriously entreat the attention of the authorities. It would be well to pause a few brief moments in the arduous duties of political administration in order to consider what a terrible state of things would be produced were the "tristeza", like the Rinderpest in South Africa, to become general. The markets to which we send our meat would be at once closed to us, and the closing of these sources of revenue for our estancieros, together with the decimation or extermination of our herds, would involve more ruin and desolation than a permanent invasion of locusts or even than a disastrous war. Our shipping would at once fall off; large firms would be closed-up. There is no exaggeration in this rough outline of calamity, which it is yet time to prevent, but which later on it will be hopeless to combat.

In making these remarks we are aware that, seemingly, agricultural interests are not wholly neglected. There is a department of Agriculture, of which we never hear anything and which is supposed to receive reports from the provinces. There is, moreover, a Rural Society, an association of well-to-do estancieros, who know what a terrible calamity a cattle-plague would be, but who would be at a loss to organize a technical or scientific campaign against an incipient epidemic. In fact we may say, without fear of contradiction, that there is no official bulwark to defend the estancieros—that is our pastoral interests, the great source of this country's vitality—against "tristeza" or indeed any other epidemic disease that may attack our herds. There could be no more palpable proof of the lack of method in the administration of this country's affairs than the fact that whereas there are no agricultural schools to produce experts or complete the education of estancieros and farmers, the Republic is overrun with National schools for the production of lawyers and doctors, and the Government has even a mining-school, as if the lawsuits or the headaches of the population, and the requirements of an unborn mining-industry were paramount to the great pastoral and agricultural interests now imperilled by the ravages of one plague and the approach of another.

Commemoration of the 60th Anniversary of Queen Victoria's Accession.

The Committee for the above Commemoration have met several times since May 6th, when the General Meeting of the British Community was held, and we are informed, have extended the original programme approved by that meeting.

It may be remembered that the programme was:—

1st—To send a congratulatory telegram to Her Majesty.
2nd—To request employers to give their employees a holiday.
3rd—To organize a Dramatic and Musical entertainment.
4th—To erect a Sailors' Home.

In carrying out these objects the Committee have already arranged with Mr. Frank Brown to hold an afternoon Circus performance to which all children of British descent are invited; this performance to take place from 1 to 4 p.m. on Tuesday June 22nd. The circular sent to Schools and Sunday Schools we append at foot.

Furthermore the opera "Pinafore" will be given by the united dramatic and musical talent of the community. It is not yet settled at what theatre nor on what evening, whether the 21st, 22nd or 23rd, the event will come off, as this depends upon the dates on which the theatre can be obtained, but it is expected that there will be two performances. It is intended that National and Patriotic songs and choruses be sung between the acts, and at the end of the opera. We may state that the Committee are much gratified at the progress of the rehearsals.

In furtherance of the last and principal item on the Programme—the erection of a Sailors' Home—the preliminary plans and estimates have been prepared, and in a few days a circular (with full particulars) will be issued appealing for subscriptions.

In addition to the above the committee have carefully considered many other methods of commemorating the event, and though nothing definite has been settled, it is contemplated to hold International Football Matches and possibly other outdoor sports. The possibility of holding a large gathering in the Pavilion is also being dealt with.

Sub-committees are discussing the best way of distributing gifts to the several charitable Institutions of the community, with a view to supplying some extra dainties to the inmates on June 22nd; also the feasibility of having medals struck off for Commemoration Day.

SUB-COMMITTEE, CIRCUS ENTERTAINMENT.

352 Calle Perú,
B. Aires, 24th May, 1897.

At a general meeting of the British community held on 6th inst. it was resolved that a free entertainment should be given to the children of British Parentage in connection with the above celebration.

It has been arranged with Mr. Frank Brown to give a special circus performance in the San Martin Theatre on Tuesday, 22nd June, from 1 o'clock till 4 p.m.

Will you please intimate to your scholars and inform this committee as soon as you conveniently can how many scholars may wish to avail themselves of this invitation, which, it is understood, is extended only to children, one of whose parents is of British descent.

The children of each school must be accompanied by a responsible person who will receive a ticket of admission, and if the party exceeds twenty children, this committee would prefer that two responsible persons should be in charge of them.

In making application for tickets please accompany same with a list of the names of the children and the person or persons who will accompany them.

As this circular is being sent to the Sunday Schools as well as Day Schools, the Superintendents of Sunday Schools will kindly ascertain whether application has been made through a Day School, and if so not include the names in their list.

The Committee trust that Principals of Day Schools and Superintendents of Sunday Schools will co-operate heartily, in order that the celebration may be worthy of the occasion.

Please send your reply on or before 5th June to the Hon. Sec. of this Sub-Committee at 352 Calle Perú.

Yours faithfully,
Hon. Sec.

THE MAY FETES.

The celebration of the 25th of May this year may be classed as one of the most brilliant National Fetes on record since this fair country broke loose from the Spanish yoke and rose up to proclaim itself a free and independent nation. The Fetes began on Monday night, when the Plaza Victoria, Government House, Cathedral and National Bank Building were one blaze of blue and white lights very artistically arranged. The decoration of the Plaza attracted general attention and was admired by all. The column of Liberty was one mass of lights, while the numerous electric lamps and green foliage of the trees and flower beds below added to the striking effect produced. Mr. Thayse, Inspector of Plazas, is to be warmly congratulated on the good taste he displayed in the decorations.

The glorious 25th broke grey and sullen, but this did not damp the ardor of Argentines and foreigners to take part in the fetes. The Avenida de Mayo and Plaza Victoria were crowded long before 1 p.m. hour at which the Te Deum in the Cathedral was to take place. Elderly matrons and lovely damsels were to be seen in the ground floor balconies of many buildings in the Avenida de Mayo and Calle Rivadavia facing Plaza Victoria, selling cedulas in Charity's cause. These $1 each "cedulas" were brought up by thousands.

At noon sharp, the attention of the enormous crowd in the Plaza and adjoining streets was attracted by the gay sound of the music played by military bands. A few minutes later and in marched the 3rd, 4th, 8th, and 11th Infantry Regiments of the Line. The veterans wore a proud look on their faces as they swung along, shoulders well thrown back, their arms polished and held at a right slant. The 3rd regiment halted before Congress Hall., while the others were ranged in order of parade up along the Avenida de Mayo. This Brigade was followed by the Naval School, Military School Cadets, and 400 marines from the men-of-war in port, the whole being under the command of General Ignacio Garmendia, the old Paraguayan War veteran.

At 1.30 the President, accompanied by a brilliant suite, including the Diplomatic Corps, walked over from the Government House to the Cathedral. Suddenly the Plaza rang with the echo of General Garmendia's voice ordering his veterans to stand in parade order, and present arms. The order was accurately executed, the men presenting their arms as one, while the bands struck up the National Anthem. After the Te Deum, Dr. Uriburu returned to the Government House where lunch was served. The march past of the Line troops then began. The men in section columns passed the Red House at a smart pace, while General Garmendia sat on his horse opposite the balcony where Dr. Uriburu was standing. Argentina's veterans and the Military and Naval School Cadets looked tip top, but the Bomberos were a bit loose. The new uniform of the Line troops looked very well, and is a great improvement on the old red trousers and blue jacket which makes such a conspicuous target for an enemy.

Another remarkable feature of Tuesday's celebration was the large number of Societies which marched in procession. We counted 80 of them headed by an allegorical cart which carried a handsome bronze laurel wreath on which were engraved the words "Circulo de la Prensa" 25 de Mayo 1897. The cart was nicely adorned with natural flowers, while two little girls one representing peace the other glory, were sitting inside the cart, which was drawn by four high-stepping chestnut horses and stopped opposite the Government House on its way to the Avenida de Mayo to receive a salute from the President of the Republic. The procession behind followed this cart up the Avenida and back again as far as the Plaza. It belongs to Mr. Miras, who had it specially constructed for the occasion, having spent a large sum of money on it. Mr. Emilio Mitre, President of the Press Association, afterwards placed the laurel wreath at the foot of Liberty's Statue in the Plaza amidst the ringing cheers of an enormous yet well behaved crowd, while Mr. Carlos Vega Belgrano made a speech during which he recalled in eloquent terms the memorable events of 1810, the brave struggle of the handful of patriots who gave up everything they held dearest in life to free their country from the oppressor. At night the Plaza was again crowded, the illuminations and firewoks being a great success. Fireworks were also let off in the Once Setiembre. The gala performance in the Opera House was a scene worthy of the largest cities in Europe. Beauty, fashion and wealth were all there.

THE CRIOLLO HORSE.

CRIOLLO VERSUS MESTIZO HORSES.

May 22nd.

Dear STANDARD,

In common, no doubt, with a great number of others I read with no little astonishment the remarks in your issue of yesterday (Friday), which are supposed to represent Colonel Trueman and his brother officers' opinion of the respective merits and demerits of "criollo" and "mestizo" horses. Without decrying the "criollo" horse, I think both breeders and users of the "mestizo" will agree that the native horse has been as much improved by mestization as have our flocks and herds. One can find good specimens of the "criollo" horse and bad specimens of the "mestizo", but I do not think that any impartial judge who knows anything about the matter can deny the general superiority of the latter.

In comparing the two rivals it would not be fair to match the light built 'criollo' with the half bred Clydesdale for speed, which is the kind of comparison some patriotic "criollos" (I don't mean horses!) delight in.

By mestization you may get in light draught horses an animal of improved appearance and greater speed without a sacrifice of stamina, and in heavy draught horses you may get an animal to draw the load of any 3 pure criollos. Is this not "improving" the native horse? What would be the state of the traffic in Buenos Aires if all the heavily laden "chatas" one sees in the streets had to be drawn by the pure "criollos?" Instead of the usual 3 "mestizos" attached to a "chata", 6 "pure criollos" would be required, or else the load carried would have to be reduced by at least half. with the consequent increase in the number of vehicles employed.

I trust that others better able than I am, will also take up the vindication of the "mestizo" horse.

Thanking you in anticipation for your insertion of this.

Believe me,
Yours faithfully,
Fair-play.

URUGUAYAN REVOLUTION.

The Uraguayan Government has published the following bulletin and telegrams received about the Blanco Revolution.

The disbanding of rebel forces continues. A brief occupation of Rivera has contributed to many of Saravia's men deserting. Saravia has finally abandoned Rivera unable to stand an attack from General Villar's troops, having previously blown up with dynamite several bridges. The latest telegrams received confirm the general opinion that the crushing of the revolution is only a question of a short time.

To the Minister of Foreign Affairs, Montevideo:

The Consul at Ana reports that a portion of General Villar's forces moved from Cunapiru at 1.30 p.m. on the 25th inst. The rest of this Commander's troops will follow in a short time. Saravia is at present in Curaice, at two leagues from Rivera and marching towards Sierra, as he

is not in a position to fight regular troops. There are considerable numbers of rebels in Santa Ana.—*Alsina Alvarez* Consul.

Yaguaron, May 25th 1897.
4.30 p.m.

To the Minister of Foreign Affairs :

I enclose a telegram which I have just received from the Consul at Santa Ana : General Villar's army has marched past Cuñapiru. The troops are in a most enthusiastic frame of mind and constantly cheer the President of the Republic and Colorado Party.—*Alsina Alvarez* Consul.

Sta. Victoria, Brazil May 25th
4.10 p.m.

Two hundred rebels routed yesterday at Castillos handed their arms over to the authorities here to-day.—Signed *Carlos Arroyo*, Subprefect of Chuy.

May 26th 11.35 a.m.

To the Minister of Foreign Affairs :

I received the following telegram last night from Santa Victoria.

"A number of defeated rebels have crossed into Brazilian Territory where they were disarmed. They will arrive here to-morrow."—*José Perichon.*

THE SAD CASE.

To the Edltor of the STANDARD,

Dear Sir,

I address myself to you, Mr. Editor, for the purpose of removing from the public mind, through the medium of your paper, an impression unfavourable to the Clergy and Charitable Institutions of our community, created by an article which appeared in the STANDARD of May 20th.

This article, with questionable pathos, called public attention to the case of the widow Molloy, painting her miseries in the most touching characters and appealing to the public for relief funds. Making allowance for all the truth there was in the article, I consider it my duty, in order to remove all discredit from the Clergy, and Charitable Institutions to state the truth of the case. The assertion that she was denied all help is false, for the simple reason that she never applied for succour except in one case in which she asked for her rent to be paid, and the matter being considered not imperiously urgent at the time, it was referred to a certain Catholic Society, but she did not apply. Moreover, I offered my services to get her children into the Boys' Orphanage at Capilla, but she refused to accept of them, saying that she preferred to keep her children to herself.

While commending your charity in making the appeal and applauding the generosity of those who responded to it, permit me to interpose that it would have been more considerate on your part to have given the article a less anti-clerical tone, and to have taken a few more precautions not to throw discredit upon and hurt the sensibilities of those Christian ladies and gentlemen of the said societies who are unselfishly making personal and pecuniary sacrifices on behalf of the poor of Christ of this community.

Assured, however, that such was not your intention, I confidently beg as a favour, that you would aid me in removing all reproach from those concerned, by inserting this communication in your columns.

Confiding in your courtesy and consideration.

I remain,
Yours respectfully,
Rev. E. L. MacDonnell.

[ED. NOTE.—Father MacDonnell is at liberty to qualify our appeal as anti-clerical and couched in questionable pathos.

We have neither pleasure nor leisure to enter into polemics over an evident misinterpretation of our remarks.

Neither is discredit cast upon the clergy and charitable institutions, nor are susceptibilities ruffled by the disclosure of the fact that they are not able to relieve all cases of distress.

The publication of such shortcomings urges the community to more energetic and united action, whilst the public criticism of the management of our charitable institutions cannot be taken otherwise than

Ut desint vires, tamen est laudanda voluntas,

and only by a stretch of hostile imagination could be distorted into an endeavour on our part to discredit the clergy or hurt the feelings of the ladies and gentlemen who devote their leisure and means to charities.

With regard to the case in point—the widow Molloy—let there be no difference of opinion. Since the publication of the appeal, the grandfather has come forward providing for the two elder boys. As for the widow and her youngest child, the charitable subscriptions of our readers and subscribers will be paid to her at the rate of $50 m/n monthly.]

BUENOS AIRES LAWN TENNIS CLUB.

OPEN TOURNAMENT.

At 9 a.m. to-day the following matches will be played :—Knox v. Moore, Verschoyle and Clarke v. Forde and McMorran. All other competitors are requested to be on the ground ready for play at 10 a.m.

The final for the Championship will be played at 2 p.m.

LAWM TENNIS CHAMPIONSHIP.

HURLINGHAM.

PALERMO.

The week is just crowded up with sport of every description, shape and hue, and the gentle public have a big list to chose from if it purposes "outing" to-day. First and foremost there is the Tennis Championship, which will be brought to a conclusion in the grounds of the Club at 5 Esquinas ; then there is the pony race meet at Hurlingham, which is sure to prove very interesting and draw a fair section of our sporting world, and lastly there is the Jockey Club meeting at Palermo, with two Football League fixtures, at Lomas and Belgrano, to wind up the card. It is what our financial friends would dub a "large order."

HURLINGHAM.

The first event will be started at 12.30 punctually, and the final at 3.45 p.m., so that visitors can easily take the 4.54 train back to town and arrive in nice time for cocktails and dinner. Most of the events have filled well, and our selections are :—

Maiden Stakes—La Victoria.
Visitors' Stakes—Chacarero.
Polo Association Cup—Spring Time.
Tournament Stakes—Highlander.
Flying Handicap—Chacarero.
May Hurdle Race—Speculation.
Galloway Hurdle Race—Brandyball.

RACING IN THE PARK.

There is nothing very particular about the make-up of the card to-day, but that it will give a good day's sport there is very little reason to doubt. Business will start with the Selling Stakes, for which Independiente, Tiradentes and Lanterne are the only candidates worthy of note, our choice being the first named, who with 50 kilos to steady him, will take a lot of beating. The second event for two year olds will be a choice between Doblete and Pillito, with a casting vote for latter. The classic for mares is absolutely at Pitanga's mercy unless she has gone off, or Chaipuel and Zig-Zag have come on a good deal. The long distance, however, will be the race of the day : over 2500 metres, Oriel and Malakoff will take a lot of beating in spite of their 51 kilos, whilst Alcaide with 53 kilos and Reserva with 50 are also very genuine chances. Malakoff will be a hot favorite; and though we think the Indecis colt will stretch him right to the post, on his form he must win. The Mile is a toss-up between Brick and Regalona, as the mare is running in such fettle that at 6 kilos she cannot be far off the Nautilus crack. In the sprint we have the full chorus of "inservibles", of which only Voladora and Little Darling have any pretensions to form, and we must stand by the former. Scipion, Hugonote and Ataque are the pick in the final, and about in the order named. Our selections, therefore, are:—

Selling Stakes		Independiente.
Puri	"	Doblete.
Los Haras	"	Pitanga.
Golondrina	"	Malakoff.
Alejandria	"	Regalona.
Rosemary	"	Voladora.
Madreselva	"	Scipion.

FOOTBALL.

BANFIELD A. C. *v.* LANUS (F.C.S.) A. C.

The above League Match was played at Banfield before a fair number of spectators including several of the fair sex, who were evidently there to see fair play. The first half of the game only needs description, as the second half was all one-sided, therefore defies minute description. Banfield winning the toss elected to defend the Lanus end goal. Immediately the ball was kicked off it was taken down to the Banfield quarters, but the backs relieved and it was carried down to the visitors' goal. After some give and take play the ball was carried down, and from a beautiful "centre" Brooking headed through the first goal for Lanus. For the next five minutes after the kick off the ball was dangerously near the Banfield goal, and eventually a goal was saved at the expense of a corner, taken by Holmes, which resulted in nothing, the ball being taken up the field only to be brought back again down the right wing, and being well centred was again headed through, this time by Buchanan.

From the kick off Banfield tried hard to score and now played more together, and taking the ball up to the enemy's lines kept it there for some time, and at last Goode, getting an opportunity, shot for goal which unfortunately just skimmed above the bar. From the goal kick Lanus again brought the ball down to the Banfied end and obtained a corner, which was only kept out at the expense of another, which taken, the ball was immediately taken up the field, and after a good run and some beautifully combined play, terminated in a goal for Banfield, kicked through by Heslop.

From the kick off Banfield again took command of the ball and obtained a corner but did not score from it, the ball being again kicked behind, just as half time was called, Banfield thereby losing their corner kick, result at ½ time Lanus 2, Banfield 1.

Banfield played up well during the first half, and had quite as much of the game as their opponents, and there was every probability of the game becoming exciting during the second half, but the final result shows that such was not to be the case, as upon restarting the ball Lanus at once carried the ball up and scored, and did the same thing with monotonous regularity with six successive goals scored in as many minutes, when Banfield, again pulled themselves together, and though they did not score themselves, prevented any more being obtained, so that Lanus in the second half obtained 6 goals, which were scored in the first few minutes after restarting, thereby being victors by 8 goals to 1.

For the visitors, Brown, Bridge, Buchanan, and Minting played first class football, whilst Goode, Rugeroni, Heslop, and Stocks were the pick of the Homesters.

Teams:—

LOMAS A. C. *v* BELGRANO 'A'.

This League match was played on Tuesday last on the ground of the latter club, before a very large and enthusiastic crowd of spectators, who were well rewarded for their attendance, as the game was one of the best contested and most exciting that has been played this season.

Lomas winning the toss, elected to defend the Railway goal, a slight breeze blowing in their favor. The ball was at once carried into the home quarters, but the kick went behind. From kick off, Negron passed well to Ibbetson, who however slipped up, and the Lomas forwards again carried the ball right in front of the Belgrano goal, where a very exciting scrimmage took place, but the ball went behind. Harvey and Rugeroni now made a splendid run, but without effect, as the Lomas backs were too good. The game now became very fast, both sides working very hard and the ball travelling from one end of the field to the other, but at length from a corner kick, J. O. Anderson sent in a swift low shot which beat Mackechnie and scored first blood for Lomas.

Both teams now worked harder than ever, and the excitement increased, and during the latter part of the first half, the game was in favour of Belgrano, but their eagerness prevented them scoring, Harvey, Negron and Rugeroni all having shots at goal, but the ball in each case went wide of the posts. Just before half time the Belgrano forwards made a splendid rush, and a hard tussle in front of the Lomas goal produced a most exciting scrimmage, but from the final effort, the ball struck the cross bar, and bounded over, and the whistle sounded with the game in favour of Lomas by one goal to nothing.

After the usual interval the ball was again in the home quarters, and a corner in favour of Lomas resulted in no score. Both teams appeared a little tired after their previous exertions, but Lomas continued to press, and shots were made at the Belgrano goal, but Mackechnie was quite equal to the occasion and prevented any further score. Belgrano, in turn, woke up and began to press, and the game became most exciting. At length Harvey and Rugeroni rushed the ball down, there was a scrimmage in front of the Lomas goal, the ball was shot in, Hall stopped it, but the Belgrano men charged forward and carried the goal keeper with them. The goal, however, was not allowed, but five minutes before time, from another scrimmage, Belgrano equalised, and the game ended in a draw.

Sidks :—

Belgrano 'A'.

Referee—H.W. Roberts.

GOLF.

The second monthly meeting will take place at Hurlingham on Sunday 30th inst. when the Championship Cup and subscription cups (handicap) will be competed for. Entries can be made on the ground.

LOMAS GOLF LINKS.

The long looked for match betweeu Lomas and Flores took place on Tuesday on these Links, and resulted in a win for the home team 24 holes up on the singles. The Foursomes all even. The original intention was for a match of ten residents from each club ; at the last moment the Flores team were disappointed of one of their men, and were also at the disadvantage of not being able to play one of their best golfers, as he was already playing in the Tennis Tournament. However, a thoroughly enjoyable day was spent by all concerned, and a most unusual unanimity expressed at the perfect state of the course and greens.

THEATRES AND AMUSEMENTS.

With such enormous audiences as completely crammed the San Martin on Tuesday and last night, all the extra expenses incurred in the production of "Un sueño de realidades" will soon be covered. Very shortly after the commencement "No hay mas localidades" was hung up, and the piece fully justified the result. Everything was carried through most perfectly and without the slightest hitch. The military and naval manœuvres reflect the highest credit on the drill-master and the continued shouts for Frank "Brun" at the finish were well deserved. It is the best thing that has ever been done at the San Martin, and such a performance as could only be carried out by a master-mind. It will be given again to-night.

May 26th.

The Legislature will be opened to-morrow. The Governor's Message is expected to be short, and the main item in it will be in reference to the arrangement of the Foreign Debt.

The "Fiestas Patrias" passed off splendidly here yesterday. There were 3000 citizens in the Civic Procession, and 7000 people in the Plaza looking on. Three thousand meals were distributed to the poor.

The Minister of Public Works will represent the Governor at the trial of the Grain-Dryer to-morrow.

The Court has suspended Escribano Cambras of Bahia Blanca for implication in the property swindle there recently brought to light.

EDITOR'S TABLE.

After the racket. There was a fizzled look about the majority of citizens of credit and renown, and those of neither, yesterday after the patriotic revel of Tuesday, which went off splendidly, with more vim and go than for many years past, the Civic and torchlight processions proving highly appreciated "novedades" for our pleasure-loving population. Such crowds of people in the streets ! And such orderly, well-dressed crowds! There was scarcely a shabby coat, dress or bonnet to be seen. The middle class, at least the women, appear to dress as elegantly as the upper. For raiment and politeness and order on public occasions, no city in the world can match the population of that in which we have the felicity of living. It is unique.

We are requested to state that the Hon. W. Barrington, British Minister, will attend the rehearsal of H.M.S. Pinafore on Friday night at the Salons des Enfants de Beranger in the Calle Tacuari. Members of the Victoria Commemoration Committee are informed that Mr. Barrington will be at the Foreign Club at a quarter to nine, whence they will adjourn to the rehearsal.

The honourable Deputies of the Nation no-queed again yesterday. They were, no doubt, thoroughly done up by their patriotic racket on Tuesday.

Floods (owing to a tremendous storm) and a probable Cabinet crisis ("dos cosas malas") formed the chief intelligence from the Chilian side of the Andes yesterday.

This is another holiday, dear readers, and we hope you will enjoy it. The usual Sport dish will be served up. See all about it in another column.

Governor Udaondo has done an act which does him honour and satisfies the outraged sense of justice of the public in commuting the outrageous sentence of several years imprisonment passed on Mr. Wilkes, formerly Treasurer of the Provincial Mortgage Bank, for having accepted coupons instead of cash payment, although he did so by the express order of the then President of the Bank. There is no more honourable man in the country than Mr. Wilkes, and we congratulate Governor Udaondo on acknowledging the fact, and Mr. Wilkes on his release from a confinement in which he was unjustly placed, to cover the criminal acts of others.

Another Buenos Aires celebraty his passed away. On the night of the great National festival poor old Grejera quietly breathed his last in the greatest poverty—but what did the absence of a feather-bed and costly medicines matter to him who for 10years had passed his nights stretched on the stone door-steps of Calle Florida ! what recked the once wealthy merchant if he died alone and in want, when for nearly a quarter of a century his every available moment—at 2 in the morning be might be seen busily scribbling — had been spent in inditing that claim against the Government which so painfully reminds one of David Copperfield's companion, the admired of his aunt, for the loss 30 years before of his three merchant vessels. The stray dogs have lost a staunch friend and all of us will miss the ubiquitous presence of poor old Grejera.

There wasn't much news from modern Greece yesterday. The people in Athens are so excited against the Royal Family that the King's abdication in favour of Prince Constantine, the Duke of Sparta, is still spoken of ; but this would make matters worse, as the people would not have the unsuccessful commander at any price. If the news from Greece is of little moment, that from London is astonishing. Lord Salisbury has informed all the Great Powers that Great Britain will not allow the dismemberment of Greece, nor even a temporary occupation of her territory till the war indemnity be paid; and if the other Powers should sanction such a course, Great Britain will withdraw from the concert and take separate action to foil Turkish territorial ambition. This will bring England face to face with Germany, who urges the Sultan to hold Thessaly till he gets his war indemnity. The really serious part ot the Eastern Question is now looming up. John Bull has spoken out and put his foot down.

The stars be thanked ! Admiral Goñi's Chilian fleet has left Rio for the West Coast, and the kissing and hugging and feeding and prancing farce, which went on for a full month, is at last over.

At the request of the popular British Vice-Consul at Bahia Blanca, Mr. C. Cumming, we publish the following circular in this column. We are glad to see that our countrymen in the near South will also have their Diamond Jubilee jollification, thanks to Mr. Cumming, and they will, no doubt, eagerly flock to it from all quarters. Mr. Cumming requests us to say that he hopes they will kindly accept the circular at foot as a cordial invitation to the loyal gathering, in case they should not receive the circulars sent to them all :—

British Vice-Consulate,
Bahia Blanca, (Arg. Rep.)
May, 22nd 1897.

Dear Sir,

At a meeting of a few British subjects held at the Vice-Consulate this afternoon, it was generally thought that a fitting way of celebrating our Queen's Jubilee would be to hold a subscription dance on the 23rd of June, and it was thought that a subscription of 25 $ would cover the necessary expenses.

As the time is very short, I would ask you to let me know before the 6th June, whether this idea meets with your approval, and if so, will add your name to the list of subscribers.

It has been suggested that each subscriber should receive his own and two ladies' tickets ; should you, however, require more of the latter for members of your family, kindly let me know.

It has also been decided that on the evening of the 24th June a gathering of all the children should be arranged, giving them an entertainment of Magic Lantern, Games, and Dances.

Yours truly,
Chas. C. Cumming
Brit. Vice-Consul.

Dr. Carles, you're the best P. M. G. the country has ever had: but why do you allow the public who ask for a 5 cent stamp to be given one of 3 cents and one of 2? It doesn't much matter for the general public, but when it comes to newspaper offices, the extra work of sticking two stamps instead of one is tremendous.

In Montevideo there was the same dearth of British flags as here on the Queen's birthday. Every family of every other nationality on both sides of the Plate has a flag of its country to fling to the breeze on patriotic occasions, but, except the Legation and Consulate, we doubt if there are half a dozen British flags in this city. This must be remedied; and in our last issue we suggested to our fair English readers how to do it.

The $500,000 prize in the Lottery last Monday fell to the most unfashionable quarter of the city, the Boca and was sold by an "agencia" in Calle Peter Mendoza. Three of the other large prizes were sold in different lottery shops in Calle Piedad, and one in Calle San Juan.

As no morning papers were flung from the windows of the Editorial Bus yesterday morning to the public, the latter felt and looked as if they were out without their hats, or had forgotten to put on a clean shirt, till the afternoon papers appeared; and at the second hour in the Temple of Gammon, everything was in business shape again.

Superstitious people on the other side of Jordan—and there are lots of them there—shook in their shoes on Monday last on seeing a bright star shining in the middle of the day, on the horizon. Old women of both sexes drew the most blood-curdling omens from the unusual phenomenon; but the partizans of the White Rose stoutly maintained that it meant the speedy and final triumph of the Blanco cause.

We are requested to tell our Boca readers that, on Saturday next there will be a concert at 791 Pedro Mendoza (the B. A. Sailors' Home and Mission). Mr. C. Watson will direct; and the music will commence at 8 p.m. Admission free.

The girls who deliberately try to better their position by marriage are (the *Spectator* says) by no means necessarily despicable people. A few are. Those, for example, who deliberately marry rich men of known bad character, very old men, or men of feeble intellect, or men they dislike. The majority, however, are very like the ambitious men who deliberately prefer getting on by marriage to marrying for other considerations, and so choose a rich wife. Theoretically, these must be rather unpleasant and repulsive people. As a matter of fact, however, they are often nothing of the kind, and end by making very good husbands.

People in Montevideo, since the last defeat of Villar by Lamas, call the false official reports of same, Government "bolatines".

Our breezy weekly contemporary on the other side of Jordan publishes the following ungallant remark of one of his subscribers. We must admit that we have heard something similar from time to time from some of our own:—"A subscriber" informs us that there are five pests on the transplatine steamers. The man who plays the saloon piano is one. The woman who plays the saloon piano is the other four."

A writer in the *Pall Mall Gazette* tells a story of a Civil servant who so far unbent as one evening to attend a music-hall. There he espied in an adjoining fauteuil a youngster of his department. No recognition was the result, but next day a peremptory message to the junior immediately to wait upon the registrar on his arrival was despatched. Ushered in, the junior heard the following:—"Mr. A——, last night you saw me at the——. Now, mark you, I do not wish it to come to my official knowledge that you were there. Good morning!" Needless to state, the secret was well kept.

The "Gefe del Detall" of General Villar's "Army of the North", defeated last week by Colonel Lamas, makes specially honourable mention of Dr. Davison's noble and humane exertion of his well-known skill, in attending to the wounded at the battle of Corrales. He was purely a volunteer, and absolutely filled up a field hospital at his own expense, with beds and everything necessary, where he and his noble colleagues attended to the wounded. Few indeed are the private doctors who voluntarily expose their lives on the battle field like this. The Oriental Government should show its sense of Dr. Davison's humane services by some special mark of distinction to the good and skilful doctor.

Those of our charitable fair readers who wish to alleviate the sufferings of the wounded in the Banda Oriental should go to the music shops and buy "Berceuse", arranged for the piano by the talented Miss Laura Valtuone, Gold Medal Laureate of the Conservatory of Music in this city. It is dedicated to Señora Leonor P. de Uriburu, wife of the President of the Republic.

The new Archbishop of Montevideo, the Most Revd. Dr. Soler, brought back from Rome the Pope's blessing for President Borda!! We hope it will get H. E. out of his present rather tight place.

Gold Premium

First Ring..... 195.50
Second Ring..... 195.50

The market is where it was, to put it crudely and concisely, and we may set it down that we have reached equilibrium point. The bulls have never been able to maintain the pass on the Rubicon; by dint of several rallies and brisk onslaughts they succeeded in putting the price up to 303, but beyond that it would not budge, falling back slowly in spite of sustained effort. The bears on the other hand have been equally unsuccessful in their attempt to push the advantage, as if they succeeded in posting 292.70, it was only to see the price rebound immediately to 297. Thus the market is pivoting for the moment on 295, and in spite of exchange shewing a firmer tendency it would be unwise to calculate therefrom any further depression in the gold rates. For one thing a depression would undoubtedly prejudice what little business there is doing, whilst the dearth of gold demand, with circumstances as they are, can only mean that things, instead of improving, are going the other way. Nothing will remove the fact that we have a bad quarter of a year staring us in the face. However, that is to be got through, the more tranquillity and less fluctuations we have the better, and though the general impression is that gold has to harden, it will be all the better if the advance movement is very gradual. Business, meantime, is as dull as it well could be, both from the number of holidays and paralysis in trade.

The total of gold disposed of at the first hour barely ran to ¾ of a million dollars. The major item was for cash, and as the supply was fairly plentiful prices relaxed, opening at 296, falling to 295, and closing at 295.50, which was also the order for the end of the month, the closing rate being also the price at after hours. In stocks there was nothing of much note, no movement in anything. Some new Italian Banks were done at 81, French Banks at 76. Santa Fé Consols receded ½ to 38.10, though subsequently done at 38.50. Catalinas dull at 7 nominally.

The Merchants' Locust Investigation Committee met to-day at 4 p. m. in the offices of Messrs. Toso, Crane & Co. in the Calle Maipu. Owing to the departure of Mr. William Goodwin for Europe, Mr. Crane, the Treasurer, was appointed Secretary of the Committee, Mr. von Bernard's resignation was accepted, and Mr. Hochstahl voted to replace him. The principal business of the meeting was taken up by concerting preparations to receive Professor Lawrence Bruner who is expected next week from the United States. Several letters from the States to Minister Buchanan were then read; these notes are most flattering to Mr. Bruner, and give very valuable information as to the locust campaigns in the United States. The chairman, Mr. J. F. Roberts reported that he had held a lengthy interview with His Excellency Minister Bermejo who assured him that the Committee could rely on the full support of the Government in its endeavours to investigate the breeding-grounds of the locust and fix on a plan to repel them. These assurances of Minister Bermejo were received with much satisfaction.

The news of the British Bank having been let in for $90,000 on a forged cheque got wind to-day and was freely commented on in the hall. It seems that one of the clerks was a prime-mover, if not the actual culprit. It is expected that most of the money will be recovered, but it is a sharp blow for the establishment all the same.

The Royal Mail packet Thames clears a full ship on Friday, as will be seen from the list of passengers in another column. She takes a number of friends: Mr. J. B. Baker, manager of the Cordoba and North Western; Mr. White, manager of the Paraguayan Railway; Mr. Kingsland, leading live stock exporter; Mr. Bramwell, of the River Plate Trust Loan; Mr. Arnot Leslie, Mr. George Mackern, Mr. Ernest Gibson, Mr. Jewell of Rosario, Mr. John Aungier, Mr. A. J. Knight of Rosario, Mr. Wiengreen, Mr. Hoffman, Dr. Pueyrredon and others. Dr. Pueyrredon, as we have already announced, has been named National Commissioner by the Government to study and report upon the foreign live stock markets, a task that could not have fallen into abler or apter hands, as the commissioner being one of our most prominent and practical

estancieros himself, will be able to appreciate to the full all the drawbacks to be overcome in placing our steers and wethers to the best advantage in Deptford. Anyone almost could report on the markets, but Dr. Pueyrredon will be in a position to do so in the most practical way. He was entertained at a farewell banquet by the other members of the directing committee of the Rural Society a few days ago, and takes nothing but good wishes for a pleasant trip and quick return with him.

The following is the standpoint from which English opinion, as reflected by the *Financial News*, looks at the siege laid to the River Plate Telegraph Company by the Post Master General. Our colleague does not mince his words, as will be seen:—"The action taken by the company has been dismissed by the Argentine courts, on the ground that its pleadings for the interim injunction enabling it to open its offices show conclusively that it intends to take proceedings ultimately against the Government for the closing of those offices. This is stated, of course, on the assumption that the action of the company against the Post Office administration is an action against the Government; but the courts lay it down that if they are not actions against the Government they must also fail, because the Post Office has no separate legal status. The company, in order to bring the action which it desires, must obtain the consent of Congress. This is locally said to be as fine a specimen of special pleading as even the South American law courts have ever furnished. It establishes the fact that a foreign company in the Argentine Republic has absolutely no redress against the Goverment for any wrong, but must submit to what the Government chooses to do, unless it thinks there is any prospect of obtaining from Congress the right to proceed against the Government. What prospect there is of any such consent being obtained those who are familiar with the ways of South American Governments will not need to be informed."

Particular interest attaches to the 1896 report of the North-West Argentine Railway, on account of the tentative proposal—not emanating from the Board—for reducing the rate of interest on the perpetual debenture stock. The net earnings for last year exceeded £50,000, and were £15,000 in excess of the sum required to pay the full interest on all three debenture issues. The gain in gross receipts was £18,376, or 22.38 per cent, and the expenditure rose only £2,136, or 4 ½ per cent. leaving a net increase of £16.240, or 46 ¼ per cent. The results would probably have been still better but for a shortage of rolling stock. The general manager considers this insufficiency of working plant likely to lead to serious consequences; for "if once the traffic has been forced into other channels, we may find it exceedingly difficult and expensive to dislodge it."

"A first-rate report, says the *Financial Times*, is that just presented by the London and Lancashire Fire Insurance Company. Knowing, as we do, the thoroughness and energy with which the management is conducted, we regard the slight drop shown in the premium income as a clear testimony to its efficiency. The total amount collected in 1896 was £836,000, which yielded a net trading profit of about £88,000, the revenue from interest not being included. Only £6,000 was taken from the Fire profits to make up the usual dividend, and at the close of the year the reserves (exclusive of the large capital) stood at as much as £903,000. The London and Lancashire is guided with a wise prudence, which the shareholders cannot value too highly. It is already one of the great offices held in esteem all the world over, and a yet wider career of prosperity may be safely assumed for this institution."

Brokers describe the exchange market as tolerably dull, but rates much firmer, which is due to the banks having manifested a disinclination to take. Two banks, we believe, took something to-day, but not much, and bankers say they cannot take, because their customers are not buying drafts. This naturally relieves the market, and hence the improvement in rates. We quote:

London—47 ⅛ d.
Paris—4.98 ½ fcs.
Antwerp—5 fcs.
Hamburg—4.07 marks.

The rate in Rio according to cables received to-day has weakened off to 7 9|16d.

The report printed in pamphlet form of the Locust Extinction Committee of the Second Circumscription, Rosario, was handed round to-day, and is a very interesting document indeed. It has four excellent plates of the Carcarana Destroyer, showing the machine at work catching the hoppers, and emptying them into the "bottomless pit" out of which there is no redemption. The report, in pointing out what good results can be gathered from well directed and energetic action, shows that in one district of six leagues square there were four distinct broods hatched and all destroyed. The neighbours suffered, however, from the invasion of the hoppers from districts alongside, where the extinction had not been properly worked, but still, despite all, only 30 % of the crops on the six leagues square was lost, the Commission being of opinion that but for the vigorous action of the farmers the whole crop would have disappeared.

The Argentine Minister at Washington has sent the Minister of Foreign Affairs here some statistical notes with reference to United States exports of animals and products during the last 8 years. In 1889 the export of horses was 3748, and the average number during the last four years was 3396. The number of pigs exported in 1896 was 491,565 and the average number for the years 1893, 1894, 95 and 96 was 266,786. The export of fresh meat has increased from 137,895,391 kilos in 1889 to 224,783,225 in 1896. The export of dairy products was not satisfactory. In 1890 there were 277,748,624 kilos of butter produced while these figures fell to 5,598,812 kilos in 1896. The number of kilos of cheese exported in 1895 reached 19,373,913 and 37,777,291 kilos in 1896.

To-morrow 27th inst. all interested in the grain trade have an opportunity of seeing the Automatic Cereal Dryer invented by Mr. Borgarelli di Torino, tested at La Plata. Invitations with train tickets were handed round to-day, and we hope to publish later on a full report as to the working of the apparatus. The agents for it in this market are Mr. Ferro, Reconquista 446, and Mr. Grapiolo, 22 Florida.

We have before us Mr. Loveday's protest to Congress as manager of the Central Argentine Railway against the decree of the Executive ordering the rails from Central to Retiro to be raised on 31st inst., and we are struck by its brevity and force, as the cause of the railway is very clearly and ably put forward. After detailing concisely the vested interests of the railway in the stretch of line in question according to concession, Mr. Loveday points out that no public interest or convenience is helped by the removal of the line, for the simple reason that there is from the Calle Rivadavia to the Retiro no single point at which access for trade to the port can be had. The line therefore is not an obstacle or impediment to traffic, whereas it serves such important suburbs that its suppression will cause untold inconvenience to thousands of daily passengers to and from the city. Of course, this is not the case with the Ensenada line; which it must fairly be confessed does seriously impede the access, but it does not follow that because the Ensenada has to move its terminus, the other lines on a different footing should have to do likewise. Congress of course will now have its say on the matter, and however much it may be disposed to uphold the Executive's views and actions, it will find it a tough job to upset the logical conclusions worked out in the protest, which is very ably drawn up, moderate in tone, vigorous in expression, sententious and concise.

Dr. Pellegrini may have convinced the Trust and Sugar Kings of the benefits derivable from protection, though even this is doubtful, but he certainly has not convinced the public. The wonder is that such an intelligence as his can possibly cling to such error, when the very baneful results of it are precisely what formed the basis of his exposition. He began by stating that people were greatly mistaken if they imagined that the aim of the Trust was to squeeze the market and put up prices. It would be difficulty to prove this, but conceding that, although the aim of the Trust and Dr. Pellegrini's advocacy are not directed at cheapening sacharine, putting the most favorable construction on their motives, it might be allowed that they would be satisfied with giving us sugar at the very barest profit on cost price. Nobody short of a philanthropist would take such a view. But even so, it upsets Dr. Pellegrini's house of cards altogether, since his theory, so that protection is only tolerable, because it aims at and conduces to cheapening of prices for local consumers. Now he will never try to contend that chucking the surplus saccharine into the River Plate or exporting it to foreign parts will cheapen it here, so that he is actually advocating now the undoing of what protection has produced, a hot-house industry, hampered, bolstered and fattened up to unwieldiness. Every word of his speech was a nail in the coffin of Protection, and the conclusion to be gathered is that even the planters, millers and refiners are only too well aware of this, so much so that no argument seems weighty enough to bring them together even with their interests so apparently identical. There will be another palaver on Friday at which the Argentine Nestor, sweet of tongue though without the gray locks, will make a fresh assault on the recalcitrants. There will be heaps of claptrap and a river of "baladi," but they will be as far off as ever from arriving at a solution until the Scalpel is brought into play. Phlebotomy is the only cure.

There was very little doing in gold at the second hour, and almost no change in the rates, as the latter opened at 295.20 to close at 295 ¼, the latter being the price also at after hour. It is suspected that the bulls are rather overbought for end of month, which helps to sustain rates. In stocks there was a faint spurt in Catalinas which put on 20 cents to the price. Some Edificadoras, a stock that has been absent from the board for a long time, were done at 90, and French Banks as in the morning at 76. Cedulas of all descriptions were neglected.

The Governor of Buenos Aires in his message to the Chamber on the reopening of the Provincial parliament will give an account in extenso of the proposals for resumption of the service of the Foreign Debt debated by the National Finance Minister but which seems to hang fire since. This will set the fat a-frying and probably set Congress on a scent if it is at all in anything like last session's regenerating mood. Santa Fé and Entre Rios will join in the bout and we suppose Cordoba will also try to be in at the death. There will be merry times in Congress when the business is started.

A TERRIBLE COUGH.

"24 Commercial Road, Peckham, July 12th

"Dear Sir,—I am a poor hand at expressing my feelings, but I should like to thank you. Your lozenges have done wonders in relieving my terrible cough. Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive) performed at St. Bartholomew's Hospital, no one could possibly have had a more violent cough; it was so bad at times that it quite exhausted me. The mucus, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly, J. HILL."

"I have, indeed, great pleasure in adding my testimony to your excellent preparation of Cough Lozenges, and I have prescribed it now for the last eight years in my hospitals and private practice, and found it of great benefit. I often suffer from Chronic Bronchitis; your Lozenge is the only remedy which gives me immediate ease. Therefore I certainly and most strongly recommend your Lozenges to the public who may suffer from Catarrh, Bronchitis, Winter Cough, or any kind of Pulmonary Irritation.—Yours truly,

Rowland's Macassar Oil

Is the best preserver and beautifier of the hair of children and adults; prevents it falling off or turning grey, eradicates scurf, and is the best brilliantine, and a little goes a very long way it really is most economical for general use; is sold in a golden colour for fair-haired ladies, and children: it contains no lead or mineral ingredients, and as it has a most delightful perfume, it is the most luxurious dressing for the hair. Bottles, 3s. 6d. 7s, 10s. 6d.

Rowlands' Kalydor.

A soothing, healing and emollient milk for the face and hands, and is most cooling and refreshing to the skin in hot climates; it removes freckles, tan, sunburn, roughness and redness of the skin, pimples, cutaneus eruptions, etc., soothes and heals prickly heat, stings of insects, eczema, burns, and all cutaneous irritation more effectually than any other preparation, and produces soft fair skin, and a lovely delicate complexion; it is warranted harmless, and free from any lead or poisonous ingredients.

Bottles, 2s. 3d. and 4s. 6d.

Rowlands' Odonto

Is a pure, fragrant, non-gritty tooth powerd and warranted free from acids or other ingredients which destroy the enamel; it whitens the teeth, prevents and arrests decay, strengthens the gums, and gives a pleasing fragrance to the breath. Sold by Druggists and Chemists.

IMPORTANT CAUTION.—Be sure to ask for Rowlands' Macassor Oil, Kalydor and Odonto, of 20, Hatton Garden, London, and see that each article bears their signature in red ink; all others are worthless and poisonous imitations; 100 years prove that Rowlands' are the best and only genuine. 432

Dr. J. Collis Browne's

CHLORODYNE

Original and only Genuine.

Vice Chancellor Sir W. Page Wood stated publicly in Court that Dr, J. Collis Browne was undoubtedly the inventor of Chlorodyne, and that the whole story of the defendant Freeman was deliberately untrue and he regretted to say it had been sworn to.—*Times*, July 13th 1864,

Dr J. Collis Browne's Chlorodyne

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in cholera was Chlorodyne.—See *Lancet*, December 31st 1864.

Dr. J. Collis Browne's Chlorodyne

«I was prescribedfor by scores of orthodox practioners. Of course it would not be thus singularly popular did it not «supply» a want and fill a place,»—*Medical Times*, Jan 2th 1866.

Dr. J. Collis Browne's Chlorodyne

Is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism etc.

Dr. J. Collis Browne's Chlorodyne
